# BASIC INTERSHIP @CLEVERED
# GAME USING VOICE RECOGNITION AND SPEECH SYNTHESIS

AUTHOR ; NIHAL MUHAMED

# ACKNOWLEDGEMENT

- I would like to express my special thanks to my parents , especially my mentors who helped me through this project and Mr. ken for the helpful suggestions he gave , and my dear group members , friends and sites

# ABOUT ME

- Myself Nihal Muhamad studying in grade 12 in UAE Abu Dhabi

- Native place is India , Kerala

# MY INTERNSHIP WITH CLEVERED

- My internship here has been amazing and gained a lot of experience and interest in the field of computer

- At a young age I was interested in computer but didn't know where to begin that's when I joined here

- Now with the help of my mentors I am able to learn coding and many more thanks to them .

# ABOUT APP

- I have made a replica of the game Mario by using speech synthesis and voice recogniton

- This is a simple game with simple instructions which I made

- With just speaking we can control and character very easily or by pressing the respective keys to move the character
